

# SV44 Surface Mount

Patent Pending

The Sea Vision SV44 underwater light has a six LED array in a thermally conductive plastic housing that incorporates a revolutionary convex lens. This innovative patent pending design creates greater light dispersion and magnification for a dynamic underwater lighting effect. This light is ideal for any boat wanting a surface mounted application or has interior access problems where thru hull lighting is difficult to install.

## SV44 technical specs

Application for:	Fiberglass / wood hulls
Glass Lens:	Convex cylindrical
Power Supply:	11-28 volt d.c. - 1.47 amps
Light Source:	White or blue LED array
Life Length:	Approx. 10,000 hours
Dimensions:	Length: 7.79" (164mm) Height: 1.73" (44mm) Thickness: 1.14" (29mm)
Construction:	Black nylon and black thermoplastic
Installation:	Fastened to a flat surface by way of three flat head screws The placement of surface mounted underwater lights on the hull bottom or sides is not recommended
